

Safer Homes Security Grants Available

Bolton Accredited & Residential Landlord Organisation [BARLO] has been successful in obtaining £30,000 of Home Office funding to make private rented homes more secure.

BARLO is offering private landlords and their tenants at no cost, a range of security products approved by the Police and Insurance Companies fitted free by an experienced local contractor.

Properties and tenants are more at risk if door locks are worn, ill fitting or not to British standards. Other free products available include door viewers, door chains, window and patio locks, concealed bolts, padlocks and light timers depending on property requirements and subject to funding availability.

Private tenants who have experienced or are fearful of becoming a victim of burglary may look for a more secure and safer place to rent. Properties that are empty between lettings are also particularly at risk.

Let us secure your property now **FREE** while these grants are available
